HOW MANUSCRIPTS ARE INDEXED

The first character is a number indicating the day the session was held as follows:

1 - Monday, 22 June
2 - Tuesday, 23 June
3 - Wednesday, 24 June
4 - Thursday, 25 June
5 - Friday, 26 June

The second character is a lower case ‘‘a’’ for a.m. or ‘‘p’’ for p.m., corresponding to the time of day the session took place. The third and fourth characters are capital letters indicating the primary Technical Committee or Technical Group that organized the session, using the following abbreviations or codes:

AA Architectural Acoustics
AB Animal Bioacoustics
AO Acoustical Oceanography
BV Bioreponse to Vibration/Biomedical Ultrasound
ED Education in Acoustics
EA Engineering Acoustics
MU Musical Acoustics
NS Noise
PA Physical Acoustics
PP Psychological and Physiological Acoustics
SA Structural Acoustics and Vibration
SC Speech Communication
SP Signal Processing in Acoustics
UW Underwater Acoustics

The 16 Plenary Lecture papers are designated with the two-letter abbreviation, PL.

In sessions where the same Technical Committee or Group was the primary organizer of more than one session scheduled for the same morning or afternoon, a fifth character, either lower-case ‘‘a,’’ ‘‘b,’’ or ‘‘c’’ is used to distinguish the sessions. Each paper within a session is identified by a paper number following the session-designating characters, in conventional manner. As hypothetical examples: paper 2pEA3 was the third paper in a session held on Tuesday afternoon, 23 June, organized by the Engineering Acoustics Technical Committee; 3pSAb5 was the fifth paper in the second of two sessions held on Wednesday afternoon, 24 June, sponsored by the Structural Acoustics and Vibration Technical Committee.

Note that the manuscripts are listed in the table of contents and appear in the numerical and alphabetical order of the session designation codes.
